

Millennium

My world is a world of

Communication,

Once we only sang or spoke or wrote or prayed,
But now we can.....

Telephone people who are far away, we can
email them too,
send a letter, fax or even a video message.

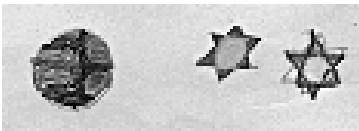

My world is a world of

Information,

Once we knew how to hunt or fish, farm by hand, sail the sea,
we knew mostly about ourselves, and had only a few books
and people to teach us,
But now we can

Learn all kinds of things, about different countries, all about
space and the stars, we have access to thousands of books
and can log on to the Internet.

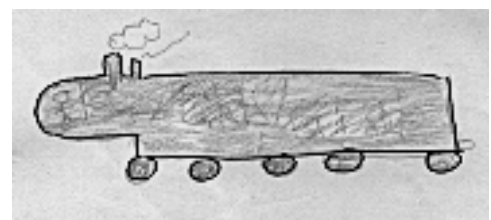

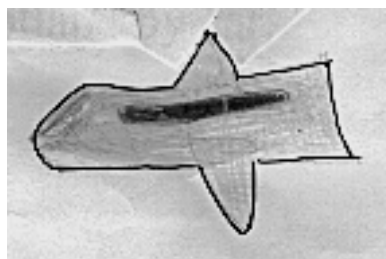

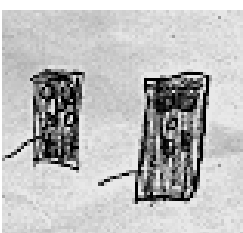

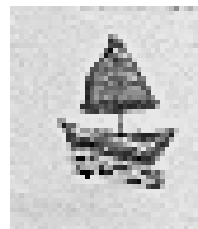

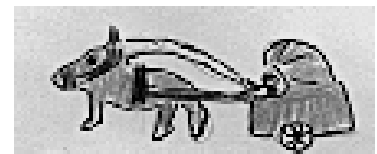

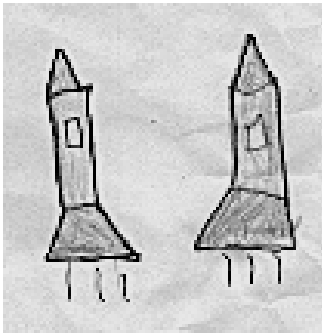

My world is a world of

Transport and travel,

Once we could only travel by horse
and cart, donkey or camel,
wooden rafts,
But now we can

Travel to Scotland by car, to Paris by train,
to Egypt by aeroplane, to America by ocean liner,
and we can even
go up in space!

My world is a world of

Technology,

Once we could only control things with levers and pulleys,
cogs and wheels,

But now we have.....

Machines with robot arms, computers, micro chips,
sensors and remote controlled cars.

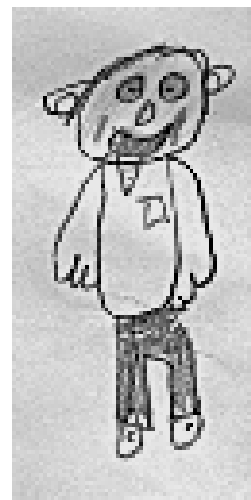

My world is a world of

People,

Once we could tell stories, sing songs, make music.

And we can still do that today –

Everyone!
